

## **MediSign: a New Cloud-based EHR for Small Medical Practices**

*MediSign is a new Cloud-based Practice Management software at a very affordable price. Clients can try it out for free for 30 days.*

**AUSTIN, Texas - March 9, 2022 - [PRLog](#)** -- MediSign Ltd released **MediSign**, a new Cloud-based EHR for Small Medical Practices. MediSign provides Electronic Health Records (EHR), reliable Patient Monitoring, smart Scheduling, and accurate Billing and Invoicing.

MediSign is an integrated Practice Management software at a **very affordable price**. It is addressed to Doctors and HealthCare Professionals in private practice. Cloud-based application, simple, user-friendly, and secure. It runs on a PC, tablet, and smartphone.

Electronic Health Records include Demographics and patient photographs, Personal history, Family history, Social History, and Encounters management. Documents and images can be attached to any Encounter.

MediSign includes medical terminology (like diseases, symptoms, medications, laboratory examinations) to facilitate the processing of the patient records by the user. The application environment is compatible with international classifications (such as ICD10).

MediSign CRM includes Appointments, Scheduling, and Contacts. Appointments are displayed in a planner, which may have the form of day, week, or month.

Patient Invoicing is quick and easy. MediSign produces elegant pdf Invoices.

The Basic Plan offers full functionality and costs \$9/month.

MediSign follows the "Pay as you go" policy. If the Clients need more services along the way, they can get them at a minimal extra cost.

Clients can try out MediSign for free for 30 days at <https://medisign.com>

About MediSign Ltd: MediSign Ltd is a web software company focused on Health Sector. The company designs and develops medical software, suitable for physicians and medical centers for more than 15 years.
